

Tweed Caps and Hats

Care of your tweed cap or hat

Clean off mud and dirt when dry by using a pure bristle hat brush*, and steam if necessary.

Remove marks using spirit such as lighter fuel or dry cleaning fluid in a well ventilated room. Test first by applying the cleaner to a small unseen area inside.

Dry by shaking off water and leave at room temperature.

Maintain the size by inserting a hat jack* inside and adjust to a snug fit. Leave it in a wet or steamed cap or hat until dry.

Keep your hat brim straight and in good shape by using a damp cloth and iron it on a cool setting.

*Available from Lock & Co.

Folding instructions

Tweed caps are designed to be folded.

Place your cap down on a flat surface

Fold your cap in half, tucking the peak under the cap band

On arrival at your destination unfold your cap and reshape

Tweed caps

Tweed is a traditional, hard wearing, rain and weather resistant Scottish textile. It is made up of pure wool yarns dyed to earthy hues drawn from the natural colours of the landscape of fields and trees, the flora of mountain sides and moors.

The yarn is woven into many patterns including window pane, houndstooth, herringbone and subtly toned plain cloths.

Lock & Co. handmade caps are cut and crafted by our cap maker Mr Gill. In addition we offer a made to order cap service for our handmade caps.

Tweed caps and hats are worn by sportsmen, country gentlemen and those who enjoy outdoor pursuits.

The Duke of Windsor adopted an extra full cut Lock 'Turnberry' cap made in his Prince of Wales tweed cloth, whilst Rex Harrison wore a hounds tooth check trilby as Professor Higgins in 'My Fair Lady'.

A selection of four Lock & Co. tweed caps:-

'Gill'

'Turnberry'

'Bentley'

'Sandwich'
